REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claimed invention with a fabric treatment storage reservoir, tumble drying cycle foam material transfer medium during a dryer operation, and plural charging conduits communicating with reservoir fabric treatment composition being directed to foam material regions is not found in the prior art either singly or in combination. The closest prior art reference is believed Rennie (US 4,567,675) which discloses a foam fabric treating device, but not the necessary reservoir or charging conduits. Other prior art references containing one or more features of the claimed invention include Hagemann et al. (US 6,604,297), Sax (US 4,532,722), and Furgal (US 4,014,105). None of the prior art cited in this or earlier actions have the necessary motivation, suggestion, or teaching to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 571 272 4875. The examiner can normally be reached on normal weekday business hours (east coast time).
